

"This funding allows us to grow our team and bring our award-winning fire safety technology to more homes across the globe."

Yusuf Muhammad
Chief Design Officer & Co-founder

Sector: Fire safety technology
Funding: £1 million GLIF Loan

Plumis
Intelligent Fire Suppression

Plumis develops intelligent water mist fire suppression systems that respond faster than conventional sprinklers and use 10x less water, protecting both people and property.

World's first targeted water mist system, achieving globally recognised UL certification for use in family dwellings.

plumis
Intelligent Fire Suppression

Plumis is using GLIF funding to:

- bring new talent to the London team
- develop new features & enhancements
- scale operations & expand global sales

More than money.

Stephen Mitchell
Investment Manager
The FSE Group

“Plumis has continued to innovate its technology to deliver a market-leading product and we are delighted to support this crucial stage in its growth.”
